## PROFESSIONAL SUMMARY

---

Mid-Level Front-End Developer with 6 years of experience in React and Next.js. Frontend technical reference at Twila (fintech), responsible for the design system architecture and critical integrations such as authentication, payments, and AWS.

## PROFESSIONAL EXPERIENCE

---

### Mid-Level Front-End Developer (Frontend Technical Lead)

Mar 2024 - Present

Twila - *Technology Startup* - twila.com.br

Joinville, SC - BR

- Technically lead the frontend team (React, Next.js, TypeScript): define architecture decisions, conduct PR reviews, and take part in meetings with clients and integrated service providers.
- Own the implementation of strategic features and critical external integrations with React/Next.js: identity validation, authentication (Auth0), credit card payment processing, and document upload to S3.
- Architected the design system shared between Credicarro and Parcele Mais (React, Style Dictionary, Tailwind, Storybook), eliminating inconsistencies that affected 45% of components and achieving 100% visual standardization across products.
- Implemented E2E (Playwright) and unit tests (Vitest + React Testing Library) in CI, raising test coverage from 0% to 25% (targeting 70%), increasing the reliability of the deployment pipeline.

### Junior Front-End Developer

Sep 2023 - Mar 2024

Martinelli Labs - *Technology Startup* - martinellilabs.com.br

Joinville, SC - BR

- Resumed development of Suite Fiscal (Angular, TypeScript), a product with stalled progress, resolving long-standing issues and improving the visualization of SQL-driven query modules.
- Fixed forms and registration modules that were causing slow load times and incorrect data submission, across Suite Auditor (React) and Suite Fiscal (Angular).
- Collaborated with the back-end team on building new modules, integrating new API endpoints with React Query and TypeScript.

### Front-End Freelancer

Jul 2023 - Sep 2023

Yoobe - *Marketing Startup* - yoobe.co

Curitiba, PR - BR

- Developed Yoobe Plataforma and Yoobe Commerce using React, Next.js (Next Commerce + Spree provider), TypeScript/JavaScript, and Formik/Material UI for forms and components.
- Refactored 60% of Yoobe Plataforma, improving performance and making it easier to add new features.
- Implemented accessibility improvements, enabling clients with visual impairments to use the platform.

### Junior Front-End Developer

Oct 2022 - Jul 2023

Open Co - *Fintech Startup* - open-co.com / geru.com.br

São Paulo, SP - BR

- Developed interfaces for Geru, a personal loan product, using React, Next.js, TypeScript, Chakra UI, and Formik, within a modular and scalable microfrontend architecture.
- Optimized site performance, accessibility, and SEO, reaching 90 points on Lighthouse.
- Implemented unit tests with Jest and React Testing Library, raising test coverage to 70%.
- Documented reusable components in Storybook and integrated feature flag control via GitLab.

### Junior Full-Stack Developer

Feb 2022 - Aug 2022

Dayway - *SaaS Startup* - dayway.com.br

Curitiba, PR - BR

- Contributed to phasing out a legacy system with a high incidence of bugs, migrating functionality to 100% adoption of the new platform (React.js) and eliminating inconsistencies inherited from the old codebase.
- Diagnosed and fixed a critical connectivity bug between the React Native app and MongoDB, restoring app stability in production.
- Developed full-stack features with Ruby on Rails, React.js, and React Native, using Redux, MongoDB Realm, MySQL, AWS, Azure, and Docker.

## Junior Full-Stack Developer

bySeven IT - Consulting - byseven.com.br

May 2021 - Jan 2022

Joinville, SC - BR

- Built full-stack modules (.NET + ASP.NET on the back-end, JavaScript/jQuery on the front-end) for the new Seven Suite, including reporting, ticket management, time tracking, and statements, from the database through to the final UI.
- Applied a design system with SCSS to standardize the project's visual identity, increasing consistency across modules built from scratch.

## Full-Stack Development Intern

Euax - Consulting - euax.com.br

Nov 2020 - May 2021

Joinville, SC - BR

- Developed back-end functionality with Ruby on Rails for the Fleeg product, with automated testing in RSpec, plus occasional front-end support with HTML, CSS, and jQuery.

## EDUCATION

**Graduate Certificate in Tech Developer 360**, Faculdade de Tecnologia Rocketseat

2025 - 2026

**B.Sc. in Software Engineering**, Centro Universitário Católica de Santa Catarina

2020 - 2023

**Calvert Education - Academy**, American School

2016 - 2017

## SKILLS

|                                 |                                                                                           |
|---------------------------------|-------------------------------------------------------------------------------------------|
| <b>Technical Skills</b>         | Git, Docker, MySQL, PostgreSQL, Scrum, Unit & E2E Testing (Vitest, Jest, RTL, Playwright) |
| <b>Languages</b>                | HTML, CSS, JavaScript, TypeScript                                                         |
| <b>Libraries</b>                | React, Radix UI, Styled Components, React Query, Zustand, Jotai, React Hook Form          |
| <b>Frameworks &amp; Tools</b>   | Next.js, Angular, Tailwind CSS, Storybook, Chromatic, Style Dictionary, Biome             |
| <b>Integrations &amp; Infra</b> | Auth0, AWS S3, CI/CD (GitHub Actions)                                                     |
| <b>Spoken Languages</b>         | English - B2                                                                              |
| <b>Other Skills</b>             | Design Systems, Clean Code, Agile, SOLID, TDD, KISS                                       |

## PROJECTS

### Front-End Volunteer Work

Doebem - Non-profit - doebem.org.br

Nov 2023 - Dec 2023

São Paulo, SP - BR

- Developed the front-end of the Doebem (non-profit) website alongside other volunteer developers and designers, using React and Next.js.
- Implemented responsiveness and multimedia component improvements, using Chakra UI to support scalability.

## CERTIFICATIONS

**Introduction to Machine Learning with Python** - USP (ESALQ)

Mar 2026

**Testing React with Jest and React Testing Library (RTL)**

Udemy course certification on testing with Jest and React Testing Library.

Nov 2022

**Hackathon Inova Católica**

Participation certificate for the Inova Católica Hackathon, where the team placed third.

Dec 2020

**Certificate of Achievement - MET**

English proficiency exam, result: B2 level.

Aug 2019
